

PRECISION

INDUSTRIAL STRENGTH DEGREASER

MAX

Precision Max is the latest advancement in refinery cleaning technology. Precision Max effectively cleans coker charge, asphalt tar, paraffin, drag reduction agent, and crude oil and tenacious soils, drastically reducing your cleaning and turn around time.

PRECISION MAX CLEANS EFFECTIVELY IN THE FOLLOWING APPLICATIONS:	
Coker charge cleaning	Parts washing
Removing asphalt	Pump shop maintenance
Tar	Refinery turnarounds
Parrafin	Spill clean up
Frac tank cleaning	Pressure washing

SUGGESTED DILUTION RATIOS:

APPLICATION	DILUTION WATER TO PRECISION MAX
Parts Washing	Full Strength to 1:1
Tank Cleaning	Full Strength
Pressure Washing	Full Strength to 40:1

*Keep this product and all other cleaners out of reach of children. Dispose of product in accordance with federal, state and local regulations.

Unlike traditional chemistries such as mineral spirits, high alkaline or hazardous chemicals, Precision Max uses the power of water. This technology is safe for the material being cleaned, the trained worker and is environmentally responsible.

Precision Max is packaged in concentrate form for cost effectiveness.

ADVANTAGES

- Quickly removes coker charge, asphalt tar, paraffins, drag reduction agent, crude oil and tenacious soils
- Contains no hazardous solvents and is environmentally responsible
- Does not contain any hazardous solvents, caustics, butyls or phosphates
- Safe to use in a confined space and not harmful to the worker
